PROFESSIONAL SUMMARY

Detail-oriented QA Engineer and SDET with hands-on experience in Manual and Automation Testing using Cypress, Selenium, Java, and JavaScript. Strong understanding of SDLC, STLC, test case design techniques, API testing, and Agile methodology. Skilled in identifying defects, executing regression suites, and ensuring high-quality software delivery. Seeking an entry-level QA/SDET role to contribute to product quality and automation excellence.

TECHNICAL SKILLS

TESTING CONCEPTS

Manual Testing • Functional Testing • Regression Testing • Smoke Testing • Sanity Testing • UI Testing

SDLC • STLC • Defect Life Cycle

Test Case Design • Test Plan • Test Scenarios

Boundary Value Analysis (BVA) • Equivalence Partitioning

AUTOMATION TESTING

Cypress (UI Automation)

Selenium WebDriver

Page Object Model (POM)

Mocha • Cucumber (Basics)

TestNG (Basic Knowledge)

API TESTING

Postman

REST API Testing

Request/Response Validation

PROGRAMMING & TOOLS

Languages: Java (Core) • JavaScript • SQL (MySQL)

Tools: Git • GitHub • JIRA • TestRail • Postman • VS Code • Chrome DevTools

Methodology: Agile (Scrum)

PROJECT EXPERIENCE

Web Automation Testing – E-commerce Platform

QA Automation Engineer

- ▶ Automated end-to-end test cases for Login, Product Search, Add to Cart, and Checkout flows using Cypress
- ▶ Designed scalable automation framework using Page Object Model (POM) for maintainability
- ▶ Implemented comprehensive assertions for UI validation and business logic verification
- ▶ Handled dynamic web elements using explicit waits and robust element identification strategies
- ▶ Executed regression and smoke test suites to ensure release quality
- ▶ Reported and tracked defects using JIRA with detailed reproduction steps
- ▶ Performed cross-browser testing to ensure compatibility across Chrome, Firefox, and Edge

Tech Stack: Cypress • JavaScript • Mocha • HTML • CSS

Manual Testing Project – Business Application

QA Tester

- ▶ Analyzed Business Requirement Documents (BRD) to understand functional specifications
- ▶ Created detailed Test Cases and Test Scenarios ensuring comprehensive coverage
- ▶ Performed Functional, Regression, Smoke, and UI Testing across multiple modules
- ▶ Logged and tracked defects with severity and priority classification in JIRA
- ▶ Ensured 100% requirement-to-test coverage using Requirement Traceability Matrix (RTM)

- Participated in Agile sprint planning, daily stand-ups, and retrospectives

EDUCATION

Senior Secondary (12th Grade)

Completed: 2022

CERTIFICATIONS & TRAINING

SDET Training Program – Masai School

Comprehensive training in Manual Testing, Automation Testing (Cypress & Selenium), Agile & Scrum Methodology, and Build-Week Project Experience

AI Tools Workshop – Be10x

Hands-on workshop covering modern AI tools for productivity and testing automation
